Benefit exclusions and limitations

Like any insurance, this dental insurance policy does have exclusions. The list below provides common exclusions but isn't meant to be exhaustive of all exclusions or limitations that may be part of your policy. See your policy for full details.

- The policy doesn't cover services started before coverage begins or after it ends. Benefits are limited to appropriate and necessary procedures listed in the policy. Benefits aren't payable for duplication of services. Covered expenses won't exceed negotiated fees (for in-network benefits) or the policy's usual and customary allowances (for out-of-network benefits). Covered expenses won't exceed annual or lifetime maximums payable under the policy.
- Benefits aren't payable for a condition that's covered under workers' compensation or a similar law, that occurs during the course of employment or military service or involvement in an illegal occupation, felony, war or any act of war, or riot, that is subject to a benefit waiting period or late entrant limitation period, or that results from a self-inflicted injury.
- Benefits aren't payable for cosmetic procedures, services related to congenital malformations, bone grafts, procedures covered under a group medical plan, prosthetic appliances for any teeth missing prior to the effective date of coverage, orthognathic recording, orthognathic surgery, osteoplasty, osteotomy, LeFort procedures, stomatoplasty, computed tomography imaging (CT scans), cone beam, or magnetic resonance imaging (MRIs), certain specialized procedures, treatment of disturbances of the temporomandibular joint (TMJ), and war.
- In certain situations, there may be more than one method of treating a dental condition. The policy includes an alternative benefits provision that may reduce benefits to the lowest-cost, generally effective, and necessary form of treatment.
- Certain conditions, such as age and frequency limitations, may impact your coverage. See the policy for details.
